

LEVEL	3
LEARNING OUTCOME	LO3: Students can take into account the principles of life cycle thinking and circular economy in relationship to new and existing businesses.
SPECIFIC LEARNING OUTCOME	Students can advise an organisation to make their business model more circular
KEYWORDS	Circular business model, advising
INTRODUCTION	First, a circular economy theoretic framework is given, followed by an assignment on the circular business model.
HOW TO WORK WITH THIS MATERIAL	Students can go through the theory by themselves. By watching the videos and making the assignments they get a good introduction in the Circular Economy. The teacher can give a small presentation afterwards to check if the students know the basics. Afterwards the teacher can explain the assignment. Students can present the results in the end.
TIMING	4h

3.1.3 SPECIFIC LEARNING OUTPUT:

Students can advise an organisation to make their business model more circular
