

## SdE Impact Questionnaire for Students

Dear student,

This survey is an impact survey for students. Students will answer to this survey twice, before and after the studies. First survey's results help teacher on planning the implementation of the Sustainability-driven Entrepreneurship study unit. The results of the second survey will show the impact of the studies and help to develop the course implementation. The study deals with the competence related to sustainability-driven business and entrepreneurship.

Instructions: please choose your answer from the given scale. For example, if you think that, you are able to analyse your strengths and competences in your own environment, answer: 5 (=quite good skills), 6 (=good skills) or 7 (=Excellent skills). If, by contrast, you have limited skills, answer 1 (=none skills), 2 (=just some basic skills), 3 (=basic skills) and 4, (=better than basic skills):

disagree completely 1 2 3 4 5 6 7 agree completely

Please notice, that this survey's purpose is not to evaluate your competence! It is important that you choose the option which states best your current competence level.

Thank you for your participation!

A few questions about your background:

1. Gender: 1- female 2 - male 3 - else
2. Have you attended an entrepreneurship-related course or training before your current studies?  
1 - yes 2 - no
