

SdE Impact Questionnaire for Teachers

This survey is an impact survey for teachers. Teachers will answer to this survey twice, before the teachers' training and after the implementation of the pilot. Survey's purpose is to evaluate the impact of the training and piloting process. The study deals with the competence related to sustainability-driven business and entrepreneurship.

Background:

1. Do you have experience of working as an entrepreneur (previously or currently, included part-time)?
Yes/no

2. What is your approach in teaching entrepreneurship, choose the most appropriate option:

- a) I teach courses directly related to entrepreneurship
- b) I teach other courses but I apply aspects of entrepreneurship in my teaching
- c) I don't teach entrepreneurship at all

3. What is your approach in teaching sustainability, choose the most appropriate option:

- a) I teach courses directly related to sustainability
- b) I teach other courses but I apply aspects of sustainability in my teaching
- c) I don't teach sustainability at all
